RE: Issuance of 2011 Local Maintaining Agency Annual Report

We are hereby providing the 2011 Local Maintaining Agency Annual Report to your library. The enclosed CD holds the electronic version of this report. This report contains information provided by Local Maintaining Agencies for Project Levees along the Sacramento and San Joaquin River Flood Control Systems. The Department of Water Resources (the Department) is required to prepare this annual report pursuant to California Water Code Section 9141 (AB 156) and required to send the report to your library in accordance, which follows:

"The department shall make the flood management report for each local agency available on the Internet Web site of the board and shall provide the report to all of the following entities:

- (1) The local agency.**
- (2) Any city or county within the local agency's jurisdiction.**
- (3) Any public library located within the local agency's jurisdiction."**

The following web site has links to the Local Maintaining Agency Annual Reports along with other information relating to our program:

<http://cdec.water.ca.gov/lma.html>

Hard copies of this report can be obtained via mail request to: Department of Water Resources, Publications, P.O. Box 942836, Sacramento, CA 94236, 916-653-1097 or by e-mail request to Publications at: imr-publications@water.ca.gov.

Thank you for helping to make this report available to the public. If you have any other question or need additional information, please contact me at teusuff@water.ca.gov or (916) 574-2362.

Sincerely,

A handwritten signature in blue ink that reads "T. Eusuff".

2012 Local Agency Reporting Requirements Workshop California Water Code § 9140 (Assembly Bill 156)

Department of Water Resources

Would you like to know about the improvements made by the Department of Water Resources (DWR) in the Local Maintaining Agency Annual Reporting (LMAAR) Program? Do you want more information about DWR's Levee Inspection Program and criteria? Would you like to be briefed by DWR on the new tool that has been developed for Levee Threat Monitoring?

If you answered "yes" to any of the above questions, please come and join us for the fifth annual workshop hosted by DWR's Flood Project Integrity and Inspection Branch. To accommodate all interested LMAs, DWR will hold the same workshop on two different dates, so please join the one convenient for you. The workshop will provide information to LMAs about the Local Maintaining Agency Annual Reporting Program and features of the electronic web application developed in partnership with the California Data Exchange Center (CDEC).

At each workshop, there will be a demonstration and hands-on exercise session of the web application. The application is designed to provide LMAs with access to flood control system information and to facilitate reporting under the California Water Code (CWC § 9140) requirements resulting from Assembly Bill 156. In addition, staff from our Levee Inspection, Flood Operations Center, and Erosion Survey programs will present information about their programs and will be available to answer questions.

Intended Workshop Audience:

Local agencies and their representatives

Proposed Agenda:

- Introductions
- Review of 2012 Annual Report
- Program Improvements in 2012
- Levee Inspection Program
- Levee Threat Monitoring Guidelines
- Erosion Survey Program
- Hands-on Demonstration of Web Application
- Q&A Session
- Comments

Workshop Sessions:

- 1: August 14, 2012, 9:00–11:00 am.
- 2: August 15, 2012, 1:30–3:30 pm.

Location: Department of Water Resources
Joint Operations Center
2nd Floor, Flood Operations Center
3310 El Camino Avenue
Sacramento, CA 95821

Please RSVP by calling or e-mailing:
Tariq Chechi at (916) 574-2354 (tchechi@water.ca.gov), or
Mahesh Gautam at (916) 574-2759 (mgautam@water.ca.gov).

Your response by August 3, 2012 will be much appreciated.

Please View the Updated Web Application

We invite you to view the updated
electronic reporting web application at any time using
the link below.

<http://cdec.water.ca.gov/lma.html>

Individual usernames and password specific to
your Local Agency or Agency representatives can be requested
through the CDEC e-mail address provided
on the website.

Existing users do not need to send another request.

We like to hear from you. Please send any comments
or suggestions to:

Tasmin Eusuff at (teusuff@water.ca.gov)
or send them using the CDEC e-mail address provided
with the web application.

The updated web application for 2012 reporting is now live.

Last updated: August 2011

Why Am I Receiving This Fact Sheet?

This fact sheet has been prepared by the California Department of Water Resources (DWR) to help clarify additions to the California Water Code (CWC) resulting from the adoption of Assembly Bill (AB) 156 (Laird) Flood Control, which was enacted during the 2007-08 Legislative Session. Additions to the Water Code include requirements for local levee maintaining agencies (Local Agencies) to submit to DWR, by September 30 each year, specific information relative to the Project Levees they operate and maintain. In turn, DWR will be required to summarize this information in an annual report to the Central Valley Flood Protection Board (CVFPB) by December 31 each year. These additions to the Water Code were effective on July 1, 2008.

Who Is Required to Report Information?

Local Agencies who maintain either (1) **Project Levees** or (2) **Non-Project Levees** that also benefit land within the boundaries of an area benefited by a Project Levee, are required to submit five categories of information annually.

(Please see below for a description of the five categories.)

NOTE: A **Local Agency** responsible for operation and maintenance of a levee not otherwise subject to these requirements may voluntarily prepare and submit to DWR or the CVFPB a flood management report for website posting.

What Information Is Required in the Local Agency Report?

Reports submitted to DWR by a **Local Agency** pursuant to CWC §9140 must include all of the following:

1. Information known to the Local Agency that is relevant to the condition or performance of the Project Levee *(or jurisdictional Non-Project Levee)*;
2. Information identifying known conditions that might impair or compromise the level of flood protection provided by the **Project Levee** *(or jurisdictional Non-Project Levee)*;
3. A summary of maintenance performed by the **Local Agency** during the previous fiscal year;
4. A statement of work and estimated cost for operation and maintenance of the Project Levee *(or jurisdictional Non-Project Levee)* for the current fiscal year, as approved by the Local Agency; and
5. Any other readily available information contained in the records of the Local Agency relevant to the condition or performance of the Project Levee *(or jurisdictional Non-Project Levee)*, as determined by the CVFPB or DWR.

How Can Local Agencies Submit This Information?

Based upon feedback received from Local Agencies, the Department developed a web application to facilitate reporting of Local Agency information. This web application allows Local Agencies to establish individual user accounts with access to certain DFM flood system information and the ability to submit required information electronically. The web application is active and can be accessed at <http://cdec.water.ca.gov/lma.html>.

A reporting package is mailed each year to all Local Agencies in July-August. The package includes template forms, reporting instructions, returning envelope, and letter to assist agencies with reporting. The letter provides additional background information on the electronic reporting web application.

How Will Local Agency Reports Be Used?

DWR will be required to prepare and transmit to the CVFPB an annual report on **Project Levees** (and *jurisdictional Non-Project Levees*) operated and maintained by **Local Agencies**. The annual report will summarize submitted information, as well as relevant portions of any of the following documents as determined by DWR:

1. Annual inspection reports on **Local Agency** maintenance prepared by DWR or the CVFPB;
2. The State Plan of Flood Control;
3. The flood control system status report described in CWC, Section 9120;
4. The schedule for mapping described in CWC, Section 8612;
5. Any correspondence, document, or information deemed relevant by DWR.

DWR will be required to make available for website viewing each **Local Agency's** flood management report, and will also be required to provide a copy of each report to the following entities:

1. The Local Agency;
2. Any city or county within the Local Agency's jurisdiction;
3. Any public library located within the Local Agency's jurisdiction.

What Are the Mandated Reporting Timelines?

Water Code changes become effective:	July 1, 2008
Local Agency reports to DWR :	Due September 30 each year
DWR consolidates report to CVFPB :	Due December 31 each year

Background on AB 156

AB 156 was introduced during the 2007-08 Legislative Session and was approved by the Governor and chaptered by the Secretary of State on October 10, 2007 (*Chapter 368, Statutes of 2007*). Additions to the CWC a result of AB 156 include: requirements that on or before September 30 of each year, a **Local Agency** responsible for the operation and maintenance of a **Project Levee** (or *jurisdictional Non-Project Levee*) will prepare and submit to DWR a report of specified information for inclusion in periodic flood management reports prepared by DWR (CWC §9140). By establishing these requirements for **Local Agencies**, AB 156 imposes a State-mandated local program. Additions to the Water Code were effective July 1, 2008.

Where have the Local Agency Reporting Requirements been added to the Water Code?

AB 156 has added Chapter 9, commencing with Section 9110, to Part 4 of Division 5 of the CWC. Water Code additions specific to the Local Agency Reporting Program are outlined below:

Water Code Section	Topic
Chapter 9, Article 1, Section 9110:	Selected Definitions
Chapter 9, Article 4, Section 9140:	Local Reports

Have Other Statutory Changes Resulted from AB 156?

Yes. AB 156 has resulted in additions to the Government Code, the Public Resources Code, and numerous other additions and amendments to the Water Code.

Glossary – Selected Definitions

"Local Agency" means a Local Agency responsible for the maintenance of a Project Levee.

"Maintenance" has the same meaning as that set forth in subdivision (f) of Section 12878. (*"Maintenance" means work described as maintenance by the federal regulations issued by the Secretary of the Army, the Secretary of Agriculture, the DWR, or the CVFPB for any project.*)

"Project levee" means any levee that is part of the facilities of the State Plan of Flood Control.

"State Plan of Flood Control" means the State and federal flood control works, lands, programs, plans, policies, conditions, and mode of maintenance and operations of the Sacramento River Flood Control Project described in Section 8350, and of flood control projects in the Sacramento River and San Joaquin River watersheds authorized pursuant to Article 2 (*commencing with Section 12648*) of Chapter 2 of Part 6 of Division 6 for which the CVFPB or DWR has provided *the assurances of nonfederal cooperation to the United States, and those facilities identified in Section 8361.*

"Fiscal year" has the same meaning as that set forth in Section 13290 of the Government Code. (The fiscal year shall commence on the first day of July)

For More Information

If you would like more information, or have questions on the Local Agency reporting requirements or web application, please contact:

Tasmin Eusuff at (916) 574-2362 (teusuff@water.ca.gov), or
Jaime Matteoli at (916) 574-2759 (matteoli@water.ca.gov), or
Tariq Chechi at (916) 574-2354 (tchechi@water.ca.gov)

DEPARTMENT OF WATER RESOURCES

DIVISION OF FLOOD MANAGEMENT

SACRAMENTO, CA 95821-9000

August 30, 2012

To: Local Levee Maintaining Agencies

RE: Local Agency Reporting Requirements

The purpose of this letter is to remind you of the California Water Code (CWC) § 9140 Local Maintaining Agency Annual Reporting deadline and the tools available for submitting the required information.

CWC § 9140 includes requirements for Local Levee Maintaining Agencies (Local Agencies) to provide an annual report to DWR on the following five categories of information:

1. Information known to the Local Agency that is relevant to the condition or performance of the Project Levee (or jurisdictional Non-Project Levee).
2. Information identifying known conditions that might impair or compromise the level of flood protection provided by the Project Levee (or jurisdictional Non-Project Levee).
3. A summary of maintenance performed by the Local Agency during the previous fiscal year.
4. A statement of work and estimated cost for operation and maintenance of the Project Levee, (or jurisdictional Non-Project Levee), for the current fiscal year, as approved by the Local Agency.
5. Any other readily available information contained in the records of the Local Agency relevant to the condition or performance of the Project Levee, (or jurisdictional Non-Project Levee), as determined by the Central Valley Flood Protection Board (CVFPB) or DWR.

The CWC deadline for Local Agencies to submit this information for 2012 is **September 30, 2012**.

In turn, DWR is required to consolidate this information and provide a summary report to CVFPB by **December 31, 2012**.

DWR has developed both electronic and hard copy reporting options to assist Local Agencies in meeting the annual reporting requirements. The electronic reporting 'Web Application' can be found by clicking on the *Local Agency Information & Reporting* link at the Local Agency Program site located at:

<http://cdec.water.ca.gov/lma.html>

August 30, 2012
Local Levee Maintaining Agencies
Page 2

This site, developed in coordination with the California Data Exchange Center (CDEC), provides additional references (Fact Sheet, Maps, Reporting Examples, Web Application User Manual, etc) and instructions on how to request a Local Agency account by establishing a user login and password.

For hard copy reporting, or for submitting documents or attachments, we have enclosed reporting instructions and template forms. Please also find an envelope enclosed with the address noted below for returning the information to DWR:

Department of Water Resources
Flood Project Integrity and Inspection Branch
P.O. BOX 219000, Room 256
Sacramento, CA 95821-9000
Attn: Tasmin Eusuff

To meet the CVFPB's December 31 deadline, DWR is encouraging Local Agencies to submit reports by September 30, 2012. Any information submitted after this date may not be included in the 2012 Annual Report.

In an effort to understand and potentially address regulatory challenges faced by local levee maintaining agencies, DWR is interested in learning about future maintenance activities that are likely to remain incomplete because of mitigation requirements, such as when avoidance of species listed by the federal Endangered Species Act and/or the California Endangered Species Act, cannot be met. Please describe these activities under Part 5 of the Local Maintaining Agency's Annual Report. DWR is looking into obtaining permits which could aid locals with these and similar issues, but need a better understanding of the size and scope of the problem. If you have questions about this reporting, please contact Leah McNearney at (916) 653-8170 or lmcnearn@water.ca.gov.

Additionally, to qualify for the DWR Flood Emergency Response Grants, Local Agencies must be in compliance with Local Maintaining Agency Annual Report. If you need more information regarding these grants, please visit <http://www.water.ca.gov/floodmgmt/hafoo/fob/floodER/> or contact Pat Clark at (916) 574-1249 (clarkp@water.ca.gov).

If you have any other question or comment regarding the Local Maintaining Agency Annual Reporting program (CWC § 9140), please contact me at (916) 574-2362 (teusuff@water.ca.gov), Tariq Chechi at (916) 574-2354 (tchechi@water.ca.gov) or Mahesh Gautam at (916) 574-2759 (mgautam@water.ca.gov).

Sincerely,

Tasmin Eusuff, Chief
Local Maintaining Agency Assessment Section

Enclosures

Local Agency Paper Copy Reporting Guidance

The enclosed forms are provided for your use in reporting Local Agency information required by California Water Code (CWC) § 9140.

As a reminder, information may also be submitted using the electronic reporting web application developed in partnership with the California Data Exchange Center (CDEC). This electronic reporting application can be found at:

<http://cdec.water.ca.gov/lma.html>

For paper copy reporting you may also wish to include, or simply submit reports your Local Agency generates, other attachments, photographs, spreadsheets, etc. An overview of the information required by CWC § 9140 is shown below:

CWC § 9140 'Parts'	Information Requested
Part 1 Reporting	Issues Relevant to Levee Condition or Performance
Part 2 Reporting	Conditions that might Impair or Compromise Level of Flood Protection
Part 3 Reporting	Summary of Levee Maintenance Performed during the Previous Fiscal Year (July 1, 2011 – June 30, 2012)
Part 4 Reporting	Statement of Levee Work and Estimated Cost for Operation & Maintenance for Current Fiscal Year (July 1, 2012 – June 30, 2013)
Part 5 Reporting	Other Readily Available Information Relevant to Levee Condition or Performance

When completed, please return the information using the enclosed pre-addressed envelope. Local Agency reports are due to the Department by **September 30th of each year**.

Further guidance on the type of information requested is described below:

Part 1 Reporting: Issues Relevant to Levee Condition or Performance	
<i>Type of Information Requested</i>	<i>Condition/Performance Feature or Category</i>
<p>In Part 1, the Department would like to receive information on areas of concern known by the Local Agencies relative to levee operation or maintenance conditions. The Condition/Performance Feature or Category items shown to the right are intended as a guide to the type of information categories the Department would like to see reported for Part 1. The list of items was developed using operation, maintenance, and inspection items which are related to the condition or performance of levees. The items were derived from the Standard Operation and Maintenance (O&M) Manuals published for the Sacramento and San Joaquin River Flood Control Projects, inspection checklists provided in the Supplemental Unit O&M Manuals, and the Superintendent's Guide to Operation and Maintenance of California's Flood Control Projects. These are suggested reporting items and/or categories which are intended to facilitate consistent reporting. The list is not all inclusive, and 'Other' may be used for items that are not identified. Issues identified by the Department in your inspection report do not need to be reported.</p>	Settlement, Sloughing, or Loss of Grade
	Caving (Either side of the Levee – W.S. or L.S.)
	Seepage, Saturated Areas, Sand Boils
	Levee/Berm Erosion
	Waterway/Channel Migration
	Sediment Accumulation
	Revetment/Rip-Rap
	Barren Area/no cover or sod
	Access Gates
	Access Roads and Road Ramps
	Cattle Guards and Gates
	Levee Crown Shape
	Unauthorized Grazing or Vehicle Traffic
	Unauthorized Encroachment
	Compaction/Loose Fill
	Borrow/Excavation Sites
	Accumulations of drift, trash or debris
	Vegetation
	Pipes/Crossings
	Pipe Flap Gates, Gate Valves
Toe/Drainage Systems	
Pump Stations	
Relief Wells/Piezometers	
Bridges and Crossings	
Slurry Walls	
Flood Walls	
Closure Structures	
Miscellaneous Facilities	
Other	

Part 2 Reporting: Levee Conditions that might Impair or Compromise Level of Flood Protection

<i>Type of Information Requested</i>	Condition Feature or Category
<p>In Part 2, the Department would like to receive information on areas of concern known by the Local Agencies relative to levee integrity/stability conditions. The Levee Condition Feature or Category items shown to the right are intended as a guide to the type of information categories the Department would like to see reported for Part 2. The selectable items list was developed considering items and conditions related to the structural integrity of, or structural changes to, the levee system. There may be many overlapping items that could be entered into either Part 2 or Part 1. The list includes typical geotechnical levee distress issues, and conditions described in the “Suggested Methods of Combating Flood Conditions” sections of the Standard Operation and Maintenance (O&M) Manuals published for the Sacramento and San Joaquin River Flood Control Projects and the associated Supplemental Unit O&M Manuals. These are suggested reporting items and/or categories which are intended to facilitate consistent reporting. The list is not all inclusive, and ‘Other’ may be used for items that are not identified. Issues identified by the Department in your inspection report do not need to be reported.</p>	Erosion
	Seepage
	Burrow Holes
	Cracks
	Sand Boils
	Subsidence
	Freeboard/Deficient Levee Crown Height
	Toe Drainage
	Visibility/Access
	Problems Identified on adjacent levees protecting same area
	Slurry Walls
	Flood Walls
	Closure Structures
	Other

Part 3 Reporting: Summary of Levee Maintenance Performed during the Previous Fiscal Year (July 1, 2011 – June 30, 2012)

Type of Information Requested	Maintenance Category
<p>Reporting that is due on September 30th each year for Part 3 encompasses maintenance activities performed during the previous fiscal year (July 1, 2011 – June 30, 2012). The list of Maintenance Categories shown to the right is intended as a guide. The list was developed considering typical levee maintenance activities reported in previous years as well as activities described in the Standard Operation and Maintenance (O&M) Manuals published for the Sacramento and San Joaquin River Flood Control Projects, the associated Supplemental Unit O&M Manuals, and the Superintendent’s Guide to Operation and Maintenance of California’s Flood Control Projects. These are suggested reporting items and/or categories which are intended to facilitate consistent reporting. The list is not all inclusive, and ‘Other’ may be used for items that are not identified.</p>	Encroachment Control
	Erosion Repair

Vegetation Control/Other	

Part 5 Reporting: Readily Available Information Relevant to Levee Condition or Performance

<i>Type of Information Requested</i>	Other Relevant Information													
<p>In Part 5, the Department would like to receive other information known by the Local Agencies relevant to levee condition or performance. The Other Relevant items shown to the right are intended as a guide to the type of information categories the Department would like to see reported for Part 5. The list is intended as a guide to the type of information the Department would like to see reported for Part 5. The list was developed considering more general information items related to the levee system including reports, studies, investigations, site conditions, construction drawings, or upcoming activities which may modify, change, or impact the levee system. These are suggested reporting items and/or categories which are intended to facilitate consistent reporting. The selectable menu list is not all inclusive, and the 'Other' menu item may be selected for items that are not listed.</p>	<table border="1"> <tr><td>Historical Construction Issues</td></tr> <tr><td>Dump/Hazardous Waste Sites</td></tr> <tr><td>Construction Drawings/As-Builts</td></tr> <tr><td>Plat Maps</td></tr> <tr><td>Reports/Studies</td></tr> <tr><td>Geotechnical Investigations</td></tr> <tr><td>Well Logs</td></tr> <tr><td>Encroachments</td></tr> <tr><td>Rights of Way/Easements</td></tr> <tr><td>Permits/MOU's</td></tr> <tr><td>Safety Plan</td></tr> <tr><td>EAP, EOP, and ERP</td></tr> <tr><td>Other</td></tr> </table>	Historical Construction Issues	Dump/Hazardous Waste Sites	Construction Drawings/As-Builts	Plat Maps	Reports/Studies	Geotechnical Investigations	Well Logs	Encroachments	Rights of Way/Easements	Permits/MOU's	Safety Plan	EAP, EOP, and ERP	Other

**Re: Memo "Request for Local Picture for
California Water Code (CWC) 9141 Local Agency Annual Report (AB 156)"**

Dear Mr. Eusuff:

We received three letters, addressed to Reclamation District Nos. 2099, 2100, and 2102. These three districts were purchased in their entirety by the U. S. Fish and Wildlife Service over ten years ago, and are now a part of the San Joaquin River National Wildlife Refuge. Those Reclamation Districts are now non-functional and no longer exist. The levees are no longer maintained because they only protected lands that are now within the Refuge. We are also working with the Army Corps of Engineers to remove any Corps levee from their Maintenance Manual. In fact, these levees have been breached by floodwaters, and we intend to construct additional breaches to restore the natural floodplain hydrology.

Please remove this Refuge from the mailing list that pertains to reclamation districts. If you have any questions, please don't hesitate to call (209/826-3508).

Sincerely,

Kim Forrest
Wildlife Refuge Manager

To: Kim Forrest, Fish and Wildlife Service

RE: Response to your September 1, 2010 letter and request for reprint

Thank you for clarifying the ownership and maintenance situation regarding the non-functional Reclamation Districts 2099, 2100, and 2102.

We do not expect any reports from this area. However, until we receive a letter from US Corps of Engineers indicating changes in their Operation and Maintenance Manual, we are required according to CWC §9141 to keep these non-functional districts in our list.

We request your permission to use your September 1, 2010 letter in our 2010 Annual Report to explain the situation to the Central Valley Flood Protection Board. If you prefer a different version of the letter, please send it to the address below.

If you have any questions, please call or email me at 916-574-2362 or teusuff@water.ca.gov.

Thank you for good cooperation with us.

Sincerely,

A handwritten signature in cursive script, appearing to read "T. Eusuff".
