

DWR Interim Vegetation Inspection Criteria for Standard Levees, October 2007

Trees trimmed 5' above ground level and thinned plus brush and weeds trimmed, thinned or removed for visibility and access on slope and 10' toe easement

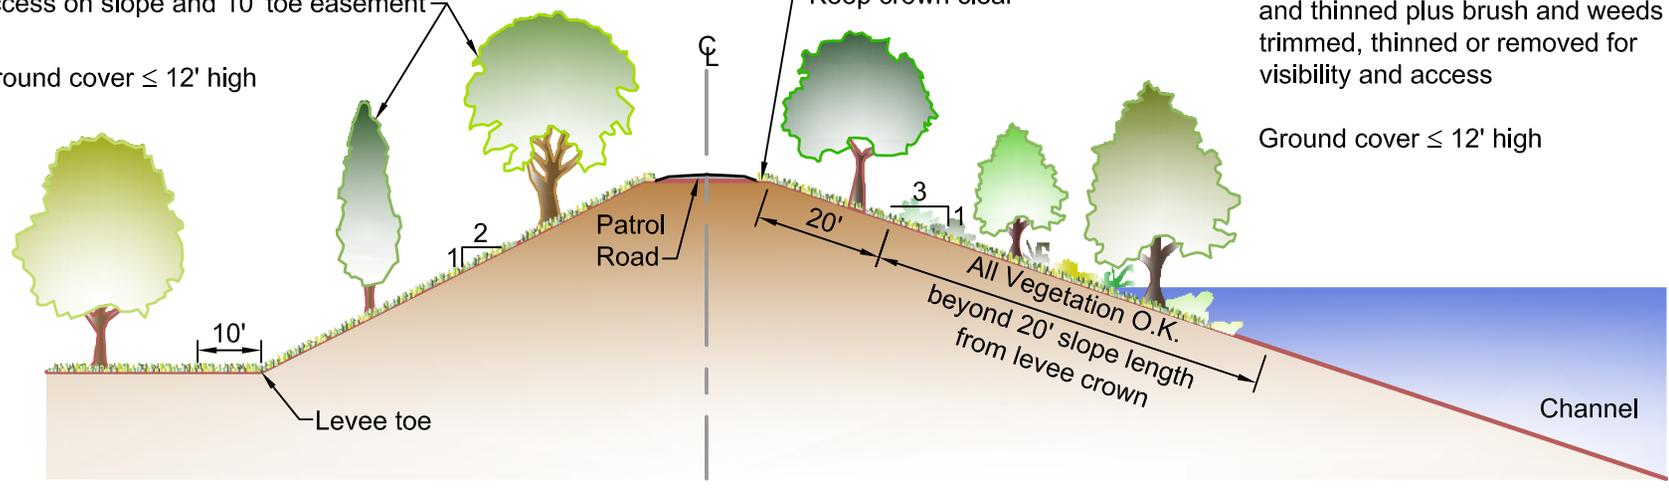

Ground cover \leq 12' high

NO BERM

Keep crown clear

Top 20' slope length:
Trees trimmed 5' above ground level and thinned plus brush and weeds trimmed, thinned or removed for visibility and access

Ground cover \leq 12' high

Trees trimmed 5' above ground level and thinned plus brush and weeds trimmed, thinned or removed for visibility and access on slope and 10' toe easement

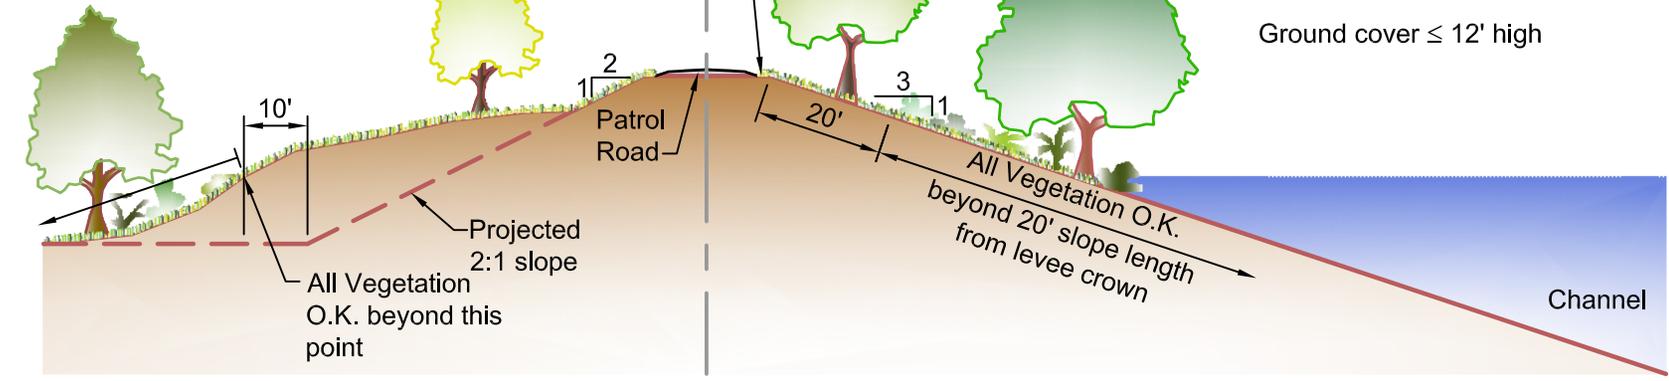

Ground cover \leq 12' high

LANDSIDE BERM

Keep crown clear

Top 20' slope length:
Trees trimmed 5' above ground level and thinned plus brush and weeds trimmed, thinned or removed for visibility and access

Ground cover \leq 12' high

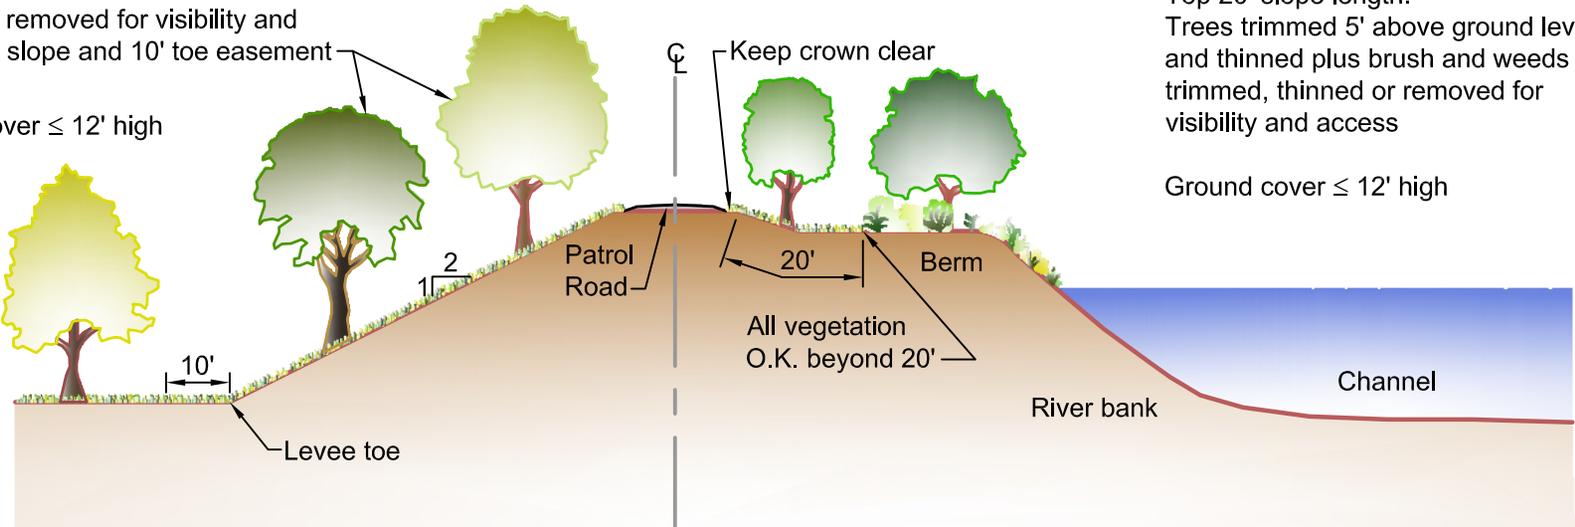

DWR Interim Vegetation Inspection Criteria for Standard Levees, October 2007

Trees trimmed 5' above ground level and thinned plus brush and weeds trimmed, thinned or removed for visibility and access on slope and 10' toe easement

Ground cover \leq 12' high

WATERSIDE BERM

Top 20' slope length:
Trees trimmed 5' above ground level and thinned plus brush and weeds trimmed, thinned or removed for visibility and access

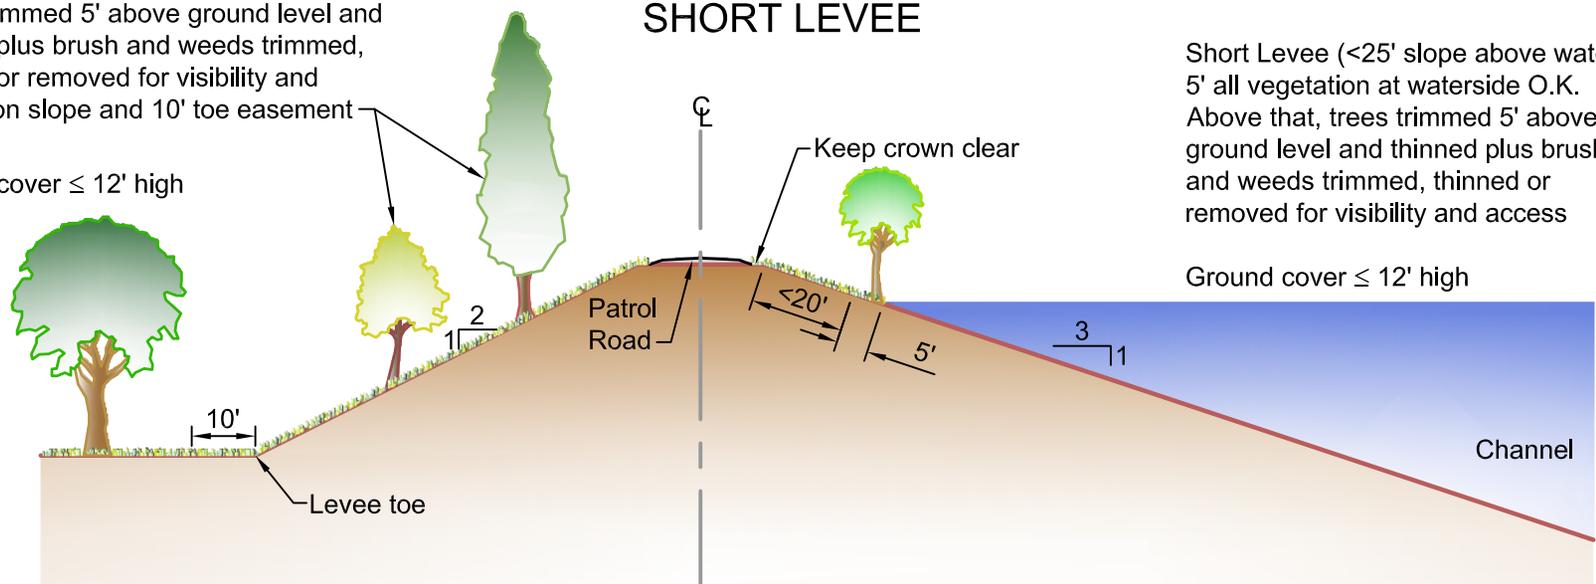

Ground cover \leq 12' high

All vegetation O.K. beyond 20'

Trees trimmed 5' above ground level and thinned plus brush and weeds trimmed, thinned or removed for visibility and access on slope and 10' toe easement

Ground cover \leq 12' high

SHORT LEVEE

Short Levee (<25' slope above water)
5' all vegetation at waterside O.K.
Above that, trees trimmed 5' above ground level and thinned plus brush and weeds trimmed, thinned or removed for visibility and access

Ground cover \leq 12' high
