

Sample: Non-Project Levee Verification

Following verifications were made on the example map.

- 1) Levee # 1 was verified with a tick (√). Specified as Unit-3
- 2) Levee # 2 was verified with a tick (√). Specified as Unit-4
- 3) Missing Levee #3 was drawn on the map. Specified as Levee Unit-5
- 4) Missing Levee #4 was drawn on the map. Specified as Levee Unit-6
- 5) Erroneous levee was identified with an “x” mark, and “Levee does not exist” was specified.
- 6) Red dots were put indicating the start or end point of a unit.

Please note that Levee #1, Levee #2, Levee #3, and Levee #4 identified in the marked up map correspond to the levees filled out in the Non-Project Levee Information Form.
